

Repel Kit

In your kit

- Climbing harness
 - Static rope
 - Descender (figure 8 or belay device)
 - Carabiners
 - Helmet
 - Gloves
-

Get to know your kit

- High vis green
 - DO NOT USE TO REPEL
 - It has a lighter carrying capacity (by about %10 of the forest green rope)
- Forest green rope
 - Resistant to breaking
 - Carrying capacity of 2646 pounds

Get to know your kit

- Your other gear is just as important
- Harness should be static if the harness moves, your torso should move with it
- Your gloves are to protect you from heat, the figure 8 gets hot from the friction

Last thoughts

If you want to use the repel kit, you have to do
in person training with me
